

METHOD FOR CANCER THERAPY USING HERBAL EXTRACTS

ABSTRACT OF THE DISCLOSURE

A new method is described for the treatment of cancer. In one alternative, the method utilizes two main compositions. The first composition is Soma, a
5 healing herb described in the Rig Veda, the sacred scriptures of the Hindus. The second composition is a composite of plant-derived substances and a mineral. When they are administered to cancer patients following the recommended therapeutic regimen, regression of the cancer results. Alternatively, the second composition can be used alone.
